OLAYODE BOLADE EMMANUEL

Senior Full-Stack Engineer

Lagos, Nigeria (Remote / Hybrid) • +234 814 686 2110 • Olayodebolade963@gmail.com • LinkedIn • GitHub • boladeolayode.xyz

PROFESSIONAL SUMMARY

Senior Full-Stack Engineer with 4+ years of experience architecting and delivering production-grade web and mobile applications across healthcare, fintech, e-commerce, logistics, and SaaS. Sole engineering owner of Twale's multi-application ecosystem, spanning administrative, web, customer, and driver platforms. Experienced in scalable API design, relational databases, cloud infrastructure, and deployment automation. Proven track record supporting business-critical systems serving 60+ healthcare clients, enabling ₦3–5M in monthly e-commerce revenue, and automating workflows to reduce manual processing by up to 80%.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, PHP, SQL
Frontend & Mobile:: React, Next.js, React Native (Expo), Vue.js, Angular, Tailwind CSS
Backend: Node.js, NestJS, Express, PHP (Laravel), Django
Databases: PostgreSQL, MySQL, MongoDB, Redis
Cloud & DevOps: AWS, Docker, GitHub Actions, CI/CD, Nginx, Linux
Architecture & Engineering: REST APIs, GraphQL, Microservices, Event-Driven Systems, System Design
Automation & Data: Google Apps Script, PDF/DOCX pipelines, third-party API & payment integrations

WORK EXPERIENCE

Senior Full Stack Engineer — Nexus Technologies *Remote | Apr 2026 – Present*

- Architected and delivered a multi-tenant SaaS platform supporting 10,000+ active users across multiple markets.
- Led the development of scalable backend services using Node.js, TypeScript, PostgreSQL, and Redis, reducing average API response times by 34%.
- Designed automated CI/CD pipelines and containerized deployments, reducing release times from hours to minutes
- Mentored four engineers, introduced code review standards, and improved test coverage across critical services.

Freelance Full-Stack Engineer — Upwork *Remote | Mar 2022 – Present*

- Built and maintain a care-management platform (WordPress + React Native/Expo app) used daily by 15 staff managing 60+ care clients; designed the RBAC permission hierarchy and family-access features, and led incident response on a server-side compromise (database cleanup, credential rotation, security hardening).
- Engineered a WooCommerce store now processing ~30 orders/day with ₦3–5M monthly revenue — payment integration (Monnify), custom order lifecycle and branded transactional emails, shipping logic, and GA4/Klaviyo analytics.
- Ship React Native apps to Google Play through GitHub Actions + EAS build pipelines, resolving signing, versioning, and store-compliance issues end-to-end.

Project Manager / Developer (Contract) — Chromite Solutions *Lagos / Hybrid | Jan 2026 – Aug 2026*

- Coordinated freelance developer teams on client projects — scoping, task breakdown, code review, and delivery timelines — while contributing hands-on development.
- Delivered a Nigerian classifieds marketplace, owning both the build and direct client communication.

Senior Web Developer— Legal Digital NG *Lagos/ On-site | Mar 2025 – Jan 2026*

- Led platform improvements for a legal-tech business: user dashboards, membership and payment workflows, frontend restructuring, and internal automations.
- Built Python and Google Apps Script automations that reduced repetitive manual data entry and document handling by 70%.

SELECTED PROJECTS

Twale Logistics — Multi-Application Logistics Platform | Sole architecture & engineering owner:

- Independently architected and developed a multi-application logistics ecosystem spanning administrative, web, customer, and driver interfaces, with separate codebases and shared business workflows.
- Designed the platform's end-to-end technical architecture, owning application integration, backend design, data modelling, and engineering decisions across the ecosystem.
- Engineered parcel booking, shipment tracking, and multi-party settlement workflows tailored to Nigeria's motor-park logistics network.
- Owned implementation across the full development lifecycle, coordinating technical requirements and maintaining consistency between interconnected applications.

MeetPie — Dating App | React Native, MongoDB, Node.js: Built and shipped to Google Play with a full CI pipeline (GitHub Actions + EAS) — signing, versioning, and store compliance handled end-to-end.

FoodBank SaaS CRM | Laravel, Next.js, MySQL: Architected a multi-role system for administrators, vendors, and beneficiaries, covering inventory, credits, subscriptions, and redemptions; deployed frontend and API in separate production environments.

Document Data Pipeline (Python): Automation converting raw legal documents into structured, publication-ready outputs — cutting manual processing time by 80% using python-docx and PyPDF2.

EDUCATION & CERTIFICATIONS

- B.Agric, Agricultural Economics — Obafemi Awolowo University, Ile-Ife (2023)
- Google UX Design Certificate (2023)
- Figma UI/UX Design Essentials, Udemy (2023)
- Google Developers Certification, Google(2024)
- Software Developer Course, AWS (2025)
